MD KHUSHNUR ANSARI

ABOUT ME

BCA graduate specializing in Python Development, Machine Learning, Full Stack Development, and AI-powered Software Engineering, with experience in building predictive systems, AI-powered career platforms, and conversational voice-enabled AI applications.

Experienced with Python, React.js, FastAPI, PostgreSQL, REST APIs, Machine Learning, LLM Integration, Prompt Engineering, and modern AI-assisted development workflows to design intelligent, scalable, and user-centric software solutions. Passionate about backend engineering, automation, and leveraging emerging AI technologies to solve real-world problems through innovative software products.

CAREER OBJECTIVE

Seeking an entry-level Software Developer, Python Developer, or Full Stack Developer role where I can contribute to building scalable software systems, intelligent applications, and AI-driven solutions while continuously enhancing my software engineering expertise and problem-solving skills.

TRAINING & PROJECTS

Organization : Alfido Tech, Hyderabad, India
Department : Data Science
Designation : Data Science Intern
Duration : 01st July 2025 To 30th July 2025
Responsibilities :

- Assisted in web application development and backend logic implementation.
- Worked on debugging and code optimization.
- Collaborated using Git for version control.

Project Title : **Loan Approval Prediction System**
Tools : **Python | Scikit-learn | Pandas | NumPy | Flask | HTML5 | CSS3 | JavaScript | Git | GitHub**

- Developed a machine learning based loan approval prediction system to automate loan eligibility assessment using customer financial and demographic information.
- Implemented data preprocessing and feature engineering using **Pandas** and **NumPy** and trained predictive models achieving 80% prediction accuracy using **Scikit-learn Logistics Regression**.
- Built backend prediction workflows using **Flask** and developed an interactive frontend using **HTML, CSS, and JavaScript** for real-time prediction results.

Project Title : **CareerFlow AI**
Tools : **React.js | FastAPI | PostgreSQL | REST APIs | JWT | LLM APIs**

- Building an AI-powered career assistant for resume analysis, interview preparation, and personalized career guidance.
- Developing scalable backend services using **FastAPI**, managing user data with **PostgreSQL**, and building responsive interfaces using **React.js**.
- Integrating **LLM APIs, REST APIs, and JWT Authentication** to deliver intelligent recommendations and conversational experiences.

Project Title
Tools

: Wingman AI
: React.js | FastAPI | PostgreSQL | LLM APIs | Speech API |
WebSockets

- Developing a voice-enabled conversational AI assistant with multiple personalities and contextual memory.
- Integrating **LLM APIs**, **Speech-to-Text**, and **Text-to-Speech** technologies for natural voice interactions.
- Implementing real-time communication using **FastAPI**, **PostgreSQL**, and **WebSocket architecture** for persistent conversational experiences.
